Devising creative solutions for a healthier, safer and more sustainable future for our society. Challenges intrigue us and fuel what we do. The more difficult and perplexing the problem, the harder we work to unravel it—and we find great meaning and satisfaction in finding solutions, developing technologies, building devices, advancing knowledge, and improving systems that enhance the lives ...

I also second Nawaphan's comment about possibly covering biological molecules in your lessons. Educator has a biochemistry section, but I think lessons with a chemistry perspective would very useful for us. My OChem class covers these biological molecules, and the last three chapters of my textbook concern these topics. Thank you! Victor Y. (Verified Member) Verify testimonial » Biochemistry ...
